

Ladybirds are encouraged in our gardens and can eat up to 5,000 pest insects in their lifetime!

1. What types of vegetables have you found in the gardens?

Your name:

Your age:

Hometown:

Adult's email:

2. Which vegetable is your favourite to eat?

3. What types of insects have you found in the gardens?

Did you know that butterflies taste with their feet!

What to do...

Answer the FIVE questions by hunting for insects and veggies when visiting gardens on the Sustainable Backyards Trail.

WRITE or DRAW

Complete the colouring page on the back.

Hand in this sheet to any host to go in the draw to win an insect hotel from the amazing **The Little Insect Farm.**

Ka mau te wehi! Awesome!

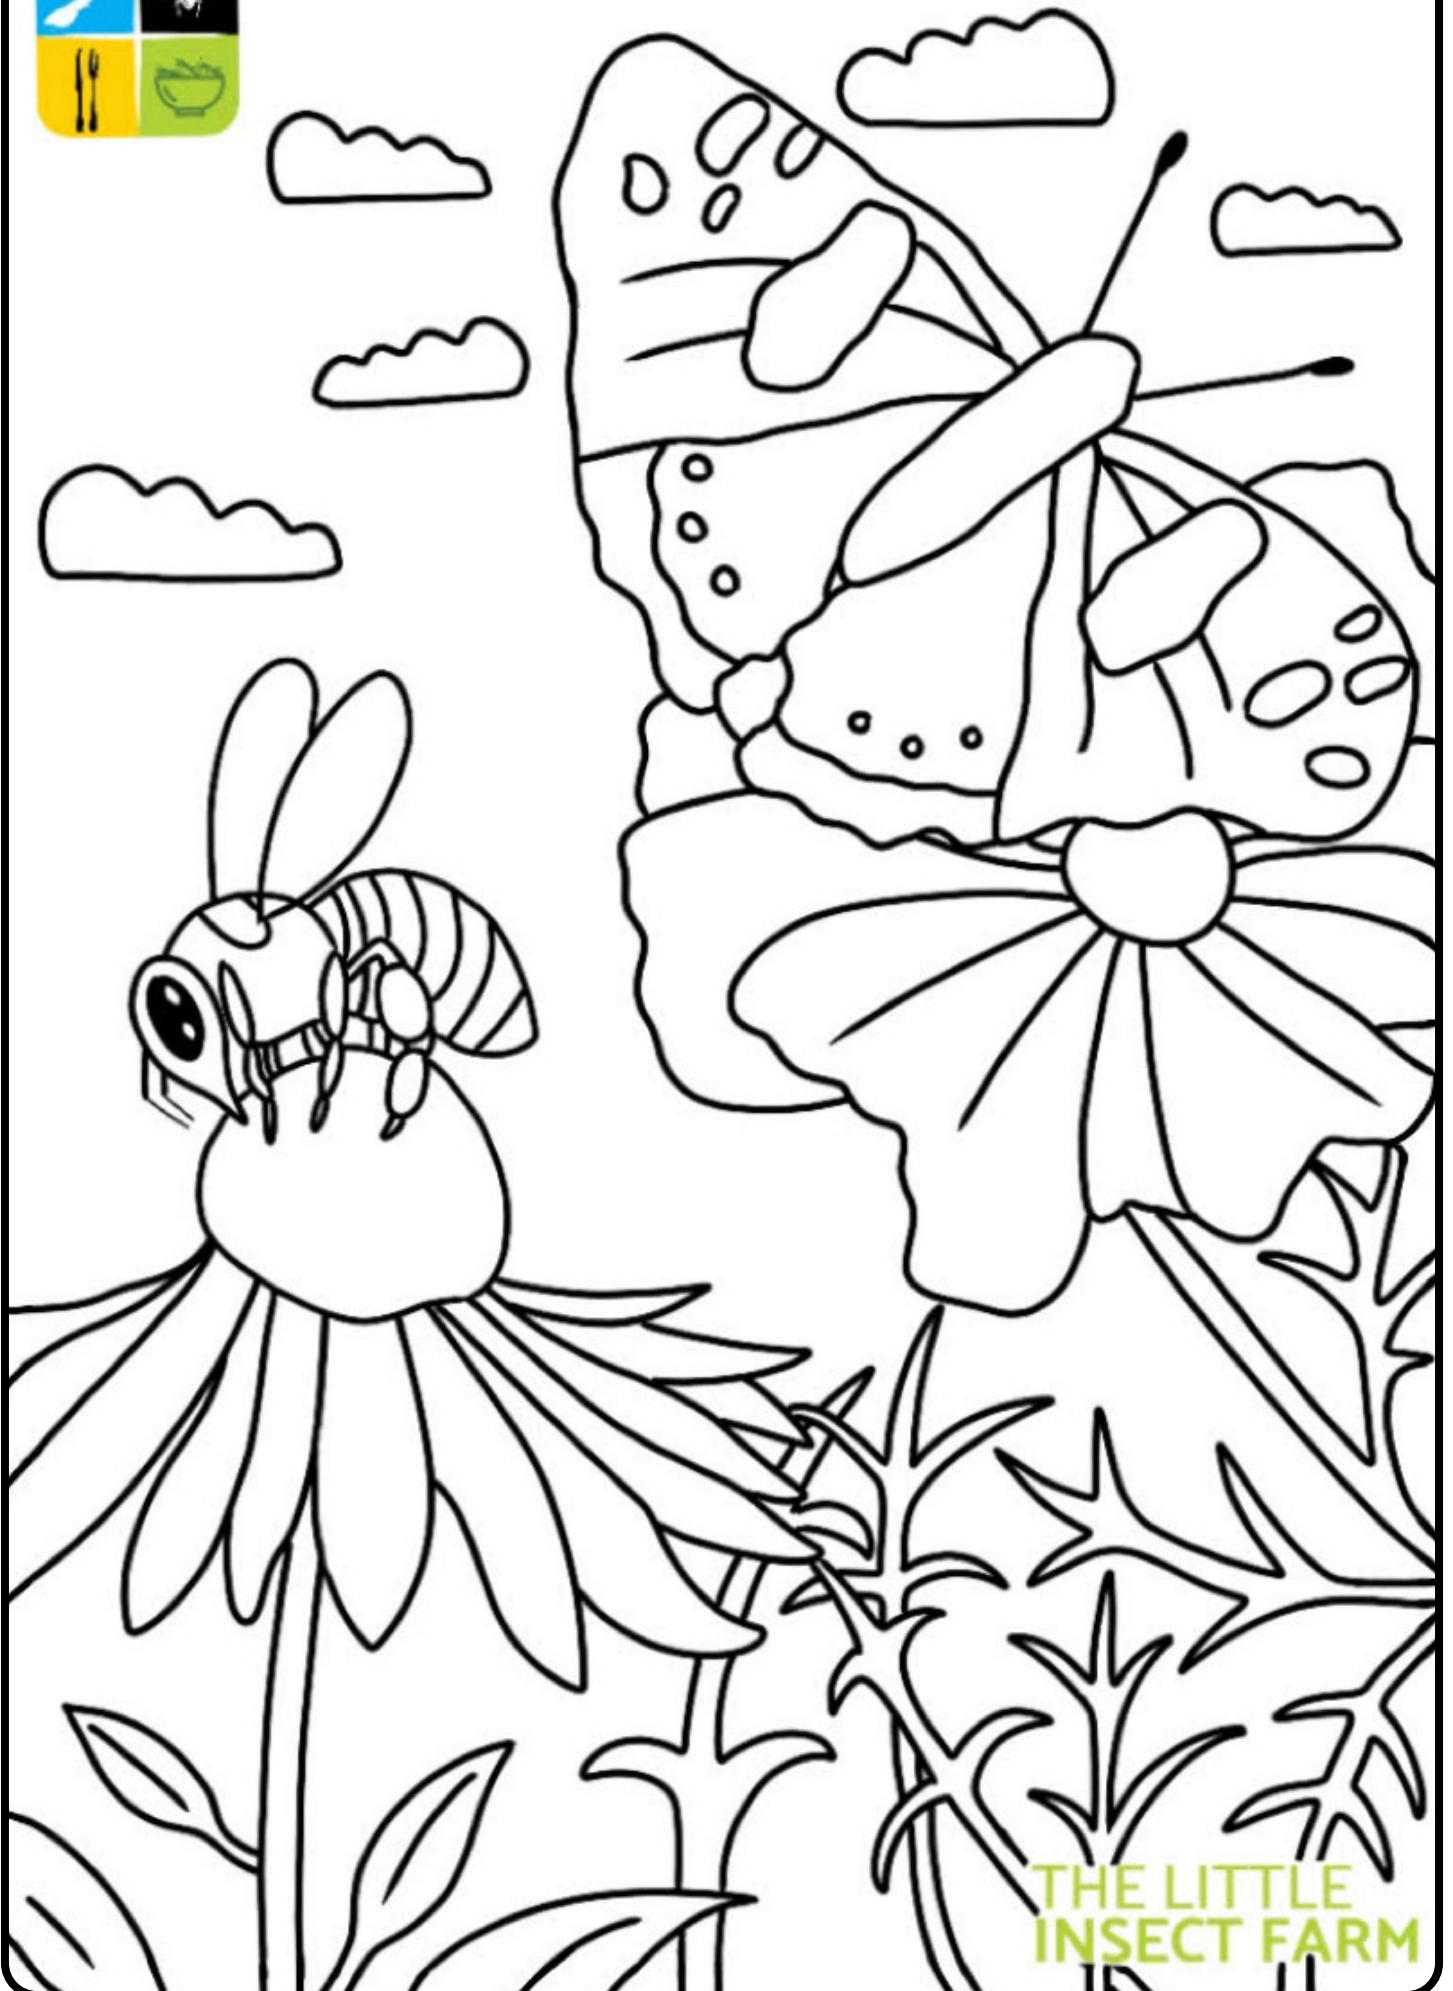

4. Which insect is your favourite?

5. If you could create a new insect, what would it look like? Use your imagination!

A bees wings beat 190 times a second, that's 11,400 times a minute!
